Assessment Plan:

Expected outcome: to increase connections between Stockton faculty, staff and students with members of external institutions.

Assessment:

We will measure this through pre- and post- event surveys. The pre-event survey will ask participants to report if they are already familiar with the strands and their work.

The post-event survey will ask participants what internal and external connections they have made because of the THATCamp and if they have any new collaborative projects in mind that have developed out of the THATCamp. Participants will be asked to describe if these are external or internal projects, or both.

Additionally, blog posts and tweets that result from the conference will be qualitatively

analyzed to see if there are any connections between internal and external communities
