Scholarly Act vity - External Funding

The Office of Research and Sponsored Programs is proud to present our [External Funding](#) highlight book for Fiscal Year 18.

External awards boasted over \$9,100,000.00 in combined funding received. Representing new funding for FY18 are 32 Principal Investigators highlighted in this year's publication, each contributing to an array of research projects spanning various disciplines and adding to the continued growth and success of Stockton University designed to education and STEM education and learning. Since 1991, this AERA Program has been vital to both research and training at early career stages.

Your Grant Application Questions Answered in New NIH Center for Scientific Review Videos

The Grants Program encourages the use of major data sets from multiple and diverse sources. It emphasizes the advanced statistical analysis of data sets from the U.S. Department of Education's National Center for Education Statistics (NCES), the Center for Scientific Review (CSR), the National Science Foundation (NSF), and other federal agencies. The program also supports studies using large-scale international data to advance their applications in the NIH peer review process.

Still have more questions? In this [video](#), 10 experts from the NIH CSR answer the top 10 peer review questions applicants ask us. Be sure to also check out a list of the [Top 100 NIH Peer Review Q&As](#) for even more information and answers to questions you might not even know to ask.
