Teaching and Learning

Strategic Enrollment Manage

The purpose of the Stockton Pride Festival is to provide education and awareness surrounding the LGBTQIA community. The idea is to have a week of educational programming and events to give the Stockton community exposure to LGBT culture.

Here are a few ideas for the Educational & Awareness programming:

Coming Out CampFire (Smores + Coming out stories)

This event is to create a safe space to provide positive communication and camaraderie among the community here at Stockton.

LGBT Trivia Night

This event is intended to take a deep dive into LGBT history by quizzing the participants in a Kahoot and offering prizes to the winner.

Drag Makeover

Bring in drag queens to do a drag makeover on 3 students and then have them participate in a lip sync battle.

Then on the last day will be the big festival. The festival will have a variety of activities for participants to partake in. Some of these activities will include:

Food Trucks

DJ

Bouncing House

Dancing / Dancing Battles

Carnival Related Games

Dunk Tanks

Face Painting

Hammer & Bell

Cotton Candy Machine

Snow Cone Machines

Ring Toss

Obstacle Course Events

Basket Ball / Volley Ball / Backyard Games

Vogue Off

Rainbow Tie Dye

Drag Show

Rock Climbing

Escape Room

The festival is to create a safe space for everyone to enjoy and find a great way for those who are not a part of the LGBT community and does not have much interaction with them a way to gain some exposure and possibly develop new relationships. This ideally would be the start of a traditional event that would help the LGBT community at Stockton make more of a presence at this school.

Strategic Impact

How will this project clearly address the strategic area/s of focus and the goal/s chosen above?

What will be the institution-wide impact of this project?

This project will address the strategic areas of focus diversity and inclusion in various ways through the programming and the festival. Here at Stockton, unfortunately there are times when minority communities are underserved. One of those communities are the LGBT communities. This project will shed light on the community and give them a campus wide event that will help them engage with the other communities within the institution. The events leading up to the festival gives a variety of activities that should peak many of the students and or faculties interests. Having events highlighting LGBT history, or bringing in drag queens will give many students exposure to culture they may have not yet experienced.

The institution wide impact would be to make Stockton a more LGBT friendly school and be one of the things that could help be a talking point for recruitment rather than a detriment. The institutional wide impact as well would be to give the LGBT community more of a voice and hopefully a loud one. This festival will hopefully help lessen the stigma and division between communities and help create more of an inclusive environment for people to authentically be themselves.

How will this project sustain itself after Compass Funding concludes (if you are seeking funding beyond a one-time project or event)?

I am not seeking funding after this one time event. However, I do imagine this event being a recurring event here at stockton. I see this happening by developing strong relationships with the clubs and organizations I partner with to get this accomplished. This will provide them a foundation on how to plan the next event bigger and better. Ideally, they could make this an annual event that provides all of the organizations a chance to come together and work on something big and become one.
